

JUNIPER®

AXIS T PENDANT

36 IN /92CM 48 IN /122CM

The Axis T draws inspiration from the extruded angles, channels, and tees that proliferated during the 19th-century industrial movement. The fixture's T-shaped silhouette is created by two bronze extruded angles. Central LED light arrays illuminate down the channel through a faceted acrylic lens to diffuse light. Casting light both above and below the fixture, light arrays can be powered together or separately to control direct and indirect lighting needs
